NOTICE: This application form is authorized by section 283.37, Wis. Stats., and Chapters NR 151 and 216, Wis. Adm. Code. Personally identifiable information on this form may be used for other program purposes and may be made available to requestors under Wisconsin's Public Records laws and be posted on the Department's Internet site.

Instructions: Complete the following for all permit applications. If additional space is needed to respond to a question, attach additional pages. Provide descriptions below that explain the program activities that you expect to develop and implement to comply with the Municipal Separate Storm Sewer System (MS4) general permit (<http://dnr.wi.gov/org/water/wm/nps/stormwater/muni.htm>). Section 3 of the MS4 general permit contains the compliance schedules that direct when the individual program activities need to be developed and submitted to the Department for review. The detailed programs that are developed and submitted to the Department for review may deviate from the program activities described below if necessary. The descriptions provided below are necessary for the Department to verify that the municipality's program activities comply with the permit.

Section VI: Summary of Municipal Storm Water Program Activities

Describe the programs or activities the municipality is doing or will do to comply with the requirements of the MS4 general permit. Attach additional pages if necessary.

A. Public Education and Outreach

Describe the public education and outreach program activities that the municipality will implement to comply with section 2.1 of the MS4 general permit.

The Town has a web site and utilizes a newsletter to promote high priority issues. Elements 2.1.1 through 2.1.8 will be incorporated into a public awareness program which will be presented to the public via the web page or newsletter.

B. Public Involvement and Participation

Describe the public involvement and participation program activities that the municipality will promote to comply with section 2.2 of the MS4 general permit.

The public will be kept advised of the requirements of this permit through contact either through the web page or from a community news letter. In all issues they are requested to provide input and to partake in the process.

C. Illicit Discharge Detection & Elimination

Describe the illicit discharge detection and elimination program authority and activities that the municipality will develop and implement to comply with section 2.3 of the MS4 general permit.

The Town has local inspectors available for enforcement of local and State codes. The Town will pass an ordinance in conformance with Section 2.3.1 of the permit and make provisions for enforcement. Measurable goals will be included in the program as it is developed.

D. Construction Site Pollution Control

Describe the construction site pollutant control program authority and activities that the municipality will develop and implement to comply with section 2.4 of the MS4 general permit.

Staff inspectors will be made aware of the new requirements for construction site pollution control. They will receive additional training, if needed, to assure that they are adequately and fairly enforcing the codes. A dry weather program to identify outfalls will be completed for the area. Outfalls will be mapped and become part of a operations manual. Written procedures for responding to suspected illicit discharges will be prepared and incorporated into the operations manual. Notification procedures, suitable responses, removal action and contact lists shall be incorporated into the operations manual.

E. Post-Construction Site Storm Water Management

Describe the post-construction storm water management program authority and activities that the municipality will develop and implement to comply with section 2.5 of the MS4 general permit.

Storm water issues are managed by Fond du Lac County which has a modern ordinance.

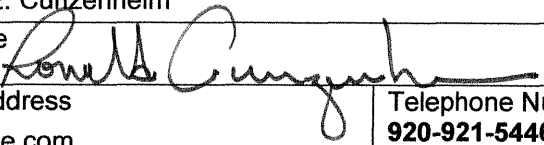

F. Pollution Prevention

Describe the pollution prevention program activities that the municipality will implement to comply with section 2.6 of the MS4 general permit.

The Town will undertake an annual assessment of all of its facilities and will review and adjust their operational practice to meet modern standards. A storm water management plan will be developed for the developed urban areas NR151.13.2. A storm sewer system map will be developed for the MS4 area. A water quality analysis shall be completed for the area within the MS4 area. The system will be reviewed and updated annually. The results will be incorporated into an annual report and forwarded to the WDNR.
